

Hood River Stewardship Collaborative

2:00-5:00pm – August 31, 2016

Mid-Columbia Agricultural Research Station – Main Meeting Room

2990 Experiment Station Drive, Hood River, Oregon 97031

MEETING AGENDA

***Purpose:** To set the stage for the Stew Crew to establish efficient and meaningful processes for developing zones of agreement and/or recommendations that utilize science, best practices, and lessons learned from other collaboratives.*

2:00 Welcome, Get Settled and Introductions

2:10 July 20th Meeting Follow-up

- Additional edits/approval of 7/20 meeting summary
- Draft Charter – input, editing and review process

2:20 How Collaboratives set goals and work towards them – Tyson

- Using science and values to accomplish the Collaboratives' goals

3:00 Break

3:15 Working towards Zones of Agreement

- Review/discuss draft recommendation timeline and altitude description
 - Does this timeline make sense?
 - Is the group comfortable moving forward with recommendations at the 10,000-20,000 ft level?
- Zones of Agreement exercise, past recommendations and word cloud

4:35 – September Field Trip? – Cindy

- Are people interested and available for a field trip in September?
- If so, what are the goals and desired outcomes of that time spent together in the field?
- Are people interested in visiting a completed project in a past planning area that the Stew Crew has made recommendations on?
- Revisit field trip sub-group and clarify next steps

4:50 – Next Steps & Action Items

- Review action items
- Agenda topics for next meeting – October 19th?

5:00 Adjourn

Note: Times are provided as a general guideline and will be adjusted as necessary to support a productive conversation.
