

# Hood River Stewardship Collaborative

1:00-4:00pm - April 20, 2016

Mid-Columbia Agricultural Research Station – Main Meeting Room  
2990 Experiment Station Drive, Hood River, Oregon 97031

---

## MEETING AGENDA

**Purpose:** *To introduce the new Stew Crew Facilitator; and to continue conversations aimed at identifying information and technical assistance needs to inform the Stew Crew's conversations around the Waucoma Planning Area restoration recommendations.*

### **1:00 Welcome and Introductions**

- Group introductions, including new Facilitator, Emily Plummer

### **1:30 Meeting Follow-up**

- Approve 2/12 meeting summary

### **1:35 Set the Stage for Constructive Conversations**

- Discussion Protocols
- What makes for good collaborative process?
- Upcoming assessment interviews with Stew Crew Members
  - Next Steps (for later meeting): Discuss and draft operating protocols that clarify how the Stew Crew works together (communication, decision making, incorporating new members, etc.)

### **2:00 Break – light snacks will be provided**

### **2:15 Information and Technical Assistance Needs for the Waucoma Planning Area**

- Review information provided at February meeting
- Follow-up regarding the Specialist's rationale for prioritizing Waucoma
- What additional information do we need in order to answer the question: what are the restoration needs in Waucoma?
  - Is this information available? If not, what resources do we have to get it?
  - How will we use this information to inform our recommendation?
  - How can we ensure that information gathered is adequate for future USFS prescriptions/planning purposes?

### **3:45 – Next Steps**

- Stew Crew website development
- Review action items
- Set date for next meeting or regular meeting date?

### **4:00 Adjourn**

*Note: Times are provided as a general guideline and will be adjusted as necessary to support a productive conversation.*
