

## **Hood River Stew Crew**

*Summary of possible technical assistance and science support providers for consideration in future work. Compiled by EJ Davis. Any incompleteness or inaccuracies are her fault.*

<b>Name of organization/people</b>	<b>Type of organization</b>	<b>Location (s)</b>	<b>Services they have offered to other collaboratives</b>
Ecosystem Workforce Program, University of Oregon	Applied research program at UO	Eugene	Applied research and social-economic monitoring projects, a number of quick guides and resources on economic impacts of restoration.
Ecotrust	501c3 nonprofit	Portland	Communications, marketing (videos, websites)
Oregon Department of Forestry	State agency	Salem/statewide	Runs Oregon's Federal Forest Health Program; ODF personnel are working with the USFS on several forests around the state, contributing to activities like data collection, layout, etc to accelerate restoration.
Oregon Solutions and Oregon Consensus	Part of PSU	Portland	Run Oregon's Federal Forest Working Group, assist with conflict resolution and collaborative process design.
Oregon State University Forestry and Natural Resources Extension	Land grant university, Extension Service	Statewide; Corvallis, Hood River	Extension agents and specialists help connect to scientists and research. EJ Davis provides collaboratives with help designing processes and structures, connecting with peers and resources, etc.
Oregon State University faculty and students		Corvallis	Scientific presentations, sometimes research projects; design prescriptions, provide science syntheses. A range of biophysical and social scientists work there.
Sustainable Northwest	501c3 nonprofit	Portland	How to start up a collaborative, process design, troubleshooting, facilitation. Tend to convene regional/state meetings for peer learning.
The Nature Conservancy		Portland	Science support activities such as primers on different forest management and science topics, partnering and helping work with researchers, GIS and mapping of collaborative values
USFS Pacific Northwest Research Station		Portland	Scientific presentations; a range of biophysical and social scientists work there.
